PROFILE

Creating an impact and having a lasting impression has always been a main focus of mine. The transition from hospitality to web development not only allows me to connect physically but now virtually. With my drive and passion to connect with others, this will allow me to evolve and expand my reach to different heights. Not only will I showcase my creativity and problem solving skills, but being a web developer will also allow me to interact with new tools and learn new skills in this ever expanding world of tech.

SKILLS

HTML, CSS/SCSS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) API's, Web API's, User Authentication, OAuth, Heroku, GitHub, Jest

EXPERIENCE

Floor Manager | Azumi Restaurants

NOV 2017 - DEC 2021, HALLANDALE, FL

- Oversaw general operations of the front of house staff, maintaining restaurant cleanliness, staff appearance and staff preparation.
- Ensured flawless dining experiences with positive interactions.
- Addressed all customer service interactions that were subpar to make sure guests never left unsatisfied.

Branch Banker | BB&T

OCT 2016 - NOV 2017, HOLLYWOOD, FL

- Developed strong relationships with potential and current clients in order to excel in finding the right solution.
- Advised clients on a small scale and discussed options that would benefit clients long-term.
- Provided exceptional service by attending properly to needs.

Personal Banker | Wells Fargo

JAN 2013 - OCT 2016, NORTH MIAMI, FL

- Consistently met and exceeded sales goals set by effectively and efficiently cross-selling bank products and services.
- Maintained full product knowledge, serviced clients with their daily needs and performed general file maintenance.

EDUCATION

BrainStation | Diploma Candidate, Web Development

JAN 2022 - APR 2022, MIAMI, FL

McArthur High School | High School Diploma

JAN 2009 - 2012, HOLLYWOOD, FL

Gifted placement classes, 3.8 GPA

PROJECTS

Tipsy   Brainstation-04/07/22

Final capstone project for brainstation bootcamp. Tipsy is a web application that allows users to locate the near happy hour to them. Tech stack used React, SASS, Leaflet, Express, node js and Yelp API

Instock   Brainstation-03/20/22

Collaborative Inventory Management System using Jira to distribute workload and Figma as a design tool. Tech stack includes React, Express, JS, SASS, Axios and Git. Fully functional web application that keeps track of inventory in real-time
